Product information | In-The-Hole Tools | Diamond Tools

The triple tube wireline core barrel is the predominant core barrel configuration used in mineral exploration where ground conditions are generally categorized as poor, and are commonly friable and broken. The PO3/PTO3 design permit ease of use with drilling additives and loss control materials as these are typically required. The PO3/PTO3 barrel uses an additional split inner tube to encourage an undisturbed sample recovery which in turn maintains on-the-job productivity levels.

Features & benefits

- Cost-efficient
- High productivity results

Units: Metric **Imperial**

1-25 of 29

3760 0060 64	1.5m / 5ft Inner tube Item:7 | Quantity:1	Compare Request information
3760 0056 29	1.5m / 5ft Split tube Item:6 | Quantity:1	Compare Request information
3760 0055 85	1.5m /5ft Core barrel assembly HWT Rod Quantity:1	Compare Request information
3760 0049 65	1.5m /5ft Core barrel assembly PO Rod Quantity:1	Compare Request information
3760 0049 69	1.5m /5ft Core barrel assembly PT Rod Quantity:1	Compare Request information
3760 0049 64	1.5m /5ft Inner tube assembly Quantity:1	Compare
