

Driven by innovation

With more than 135 years of innovation and experience, Atlas Copco delivers the products and services to help maximize your company's efficiency and productivity. As an industry leader, we are dedicated to offering high air quality at the lowest possible cost of ownership. Through continuous innovation, we strive to safeguard your bottom line and bring you peace of mind.

Building on interaction

As part of our long-term relationship with our customers, we have accumulated extensive knowledge of a wide diversity of processes, needs and objectives. This gives us the flexibility to adapt and efficiently produce customized compressed air solutions that meet and exceed your expectations.

A committed business partner

Our commitment to you does not simply end when your Atlas Copco products have been delivered and installed. We have an extensive range of aftermarket services to offer you continued support, whenever you need it. With a presence in over 160 countries, we can deliver high-quality customer service anytime, anywhere. Our highly skilled technicians are available 24/7 to answer any queries you may have. And all of this is backed by an efficient logistics organization, ensuring fast delivery of genuine spare parts when you need them. With Atlas Copco you can rest assured that your superior productivity will always be our first concern!

Atlas Copco Compressor Technique Services

Keeping your equipment fit at all times

REASONS to rely on Atlas Copco Customer Support Plans

1 Most cost effective approach

A periodic check of your installation keeps your maintenance costs down. And when the costs are fixed and known in advance, you will have less administration costs and avoid unbudgeted surprises.

2 Longer life expectancy of your compressor installation

Regular maintenance significantly lowers the risk of deterioration and ensures that your installation will last longer. Our technician will notice and replace poorly working parts. A quick reaction and change of parts keep the machine running longer in working conditions.

3 Reliability, quality and productivity

Regular and well-performed maintenance assures the reliability of your installation and the quality of your compressed air. This way you lower the risks of a possible loss of quality of your production or a breakdown followed by production loss, which ultimately leads to lower profitability.

4 Global presence, local service

Atlas Copco Customer Support Plans are not limited by borders. From the extreme cold of Northern Canada to the deserts of central Australia, our approximately 3000 factory trained technicians are never more than a phone call away. Combined with our genuine parts distribution system, operating 24/7, you can rest assured your production continuity is in safe hands.

5 Energy savings

Regular replacement of worn parts combined with the use of genuine Atlas Copco parts make your compressed air installation last longer and cause a minimal average pressure drop, which leads to energy savings.

PLANS to keep your production optimal at all time

Atlas Copco can offer any number of solutions for planned maintenance. What you need is a solution to keep your production optimal at all time and preferably at the lowest cost. Our specialist aftermarket advisors will visit your production facilities and assess your specific needs. This allows us to propose the most cost effective Customer Support Plan for you.

With the aim of finding the solution that fits your specific needs, you can take various approaches that demand less to more involvement from our part. Evidently you can step up to a higher level and adjust and customize the proposed plan at any time depending on your needs.

WAYS TO EASE YOUR MIND

PEACE OF MIND

You hand it to us

Atlas Copco services your compressed air installation following a **complete maintenance system** that covers all breakdowns. Your equipment will be kept in prime condition at any time and the annual costs for the agreed period are fixed. This includes all the required parts, labor and travel expenses. There are no hidden surprises. **You have total peace of mind.**

We give you a hand

We service your compressed air system at **predetermined intervals** to lower the risk of unexpected problems and keep your production process optimal at all time. The routine maintenance costs are fixed, which allows you to easily forecast them.

We leave it in your hands

We deliver the necessary spare parts and leave the actual maintenance up to you. We check your compressed air system regularly and identify the necessary actions. The output of each inspection is a **complete diagnostics report**.
