

### Driven by innovation

With more than 135 years of innovation and experience, Atlas Copco delivers the products and services to help maximize your company's efficiency and productivity. As an industry leader, we are dedicated to offering high air quality at the lowest possible cost of ownership. Through continuous innovation, we strive to safeguard your bottom line and bring you peace of mind.

### Building on interaction

As part of our long-term relationship with our customers, we have accumulated extensive knowledge of a wide diversity of processes, needs and objectives. This gives us the flexibility to adapt and efficiently produce customized compressed air solutions that meet and exceed your expectations.

### A committed business partner

Our commitment to you does not simply end when your Atlas Copco products have been delivered and installed. We have an extensive range of aftermarket services to offer you continued support, whenever you need it. With a presence in over 160 countries, we can deliver high-quality customer service anytime, anywhere. Our highly skilled technicians are available 24/7 to answer any queries you may have. And all of this is backed by an efficient logistics organization, ensuring fast delivery of genuine spare parts when you need them. With Atlas Copco you can rest assured that your superior productivity will always be our first concern!

## CONTROLLING your compressed air cost

Compressed air plays a vital part in almost all modern manufacturing processes. In today's competitive production environments, being able to reduce costs, increase efficiency and guarantee maximum uptime is high on everyone's priority list.

With solutions suitable for installations of all sizes, AIRConnect offers different ways of looking at your entire compressed air system. From offering a basic status overview and notifications in case of irregularities to in-depth reports and guaranteed response times, this package is set to handle all monitoring tasks and improve your productivity at the same time!

### Re-activity

The **Atlas Copco notification products** offer a convenient early warning system. With these solutions you can monitor the status of your compressor in real-time, and rapidly react to any situation. Preventing breakdowns and shortening downtime, these tools allow you to keep operational costs to a minimum.

#### Straightforward notification

This straightforward alerting solution ensures that you are aware of all events occurring within the compressor, facilitating an instant and appropriate response. The **AIRConnect Notification** solution allows you to deal with any potential problem even before it manifests itself.

#### Intelligent notification

Critical events require different handling than others. **AIRConnect Notification+** guarantees each notification is sent to the correct group of people using the most suitable medium – SMS and/or e-mail.

## LOOKING OUT for your interest

### NOTIFICATION

AIRConnect Notification

AIRConnect Notification+

#### Fundamentals & Benefits

- Prevention of shutdowns or failures
- Improved reliability and increased lifetime of non-consumable parts
- Reduced time-intensive administration through pro-active scheduling of maintenance

### VISUALIZATION

AIRConnect Visualization

AIRConnect Visualization+

#### Fundamentals & Benefits

- Increased transparency through consolidation of all data
- Logging and trending to establish the exact performance of your system
- Real-time display of machine values and statuses directly on your screen

### SUPERVISION

AIRConnect Supervision

### ANALYSIS

AIRConnect Analysis

#### Fundamentals & Benefits

- No need for frequent machine checks, saving you time and money
- Realize maximum uptime and reliability, backed by the Atlas Copco service organization
- A perfect complement to the Atlas Copco Service Plan, driving down your total cost of ownership

### Pro-activity

Knowing exactly how your system is running makes identifying ways for improvement much easier. **The Atlas Copco monitoring products** provide you with the transparency you need to intelligently assess system performance and study the outcome. Based on this analysis you can then easily determine a course of action to improve system usage and limit energy consumption costs.

#### Local visualization

The key to an efficiently run production environment is knowing exactly what is occurring in your compressed air system at all times. With the **AIRConnect Visualization** solution all information is at your fingertips, from installation status to trends and system performance.

#### Web based visualization

To compile a real-time overview of the system's behavior, **AIRConnect Visualization+** continuously samples data from the installation. Compare this information with typical production output data or even multiple sites within your company and the tools to identify major cost reductions are yours!

### The complete picture

Having the same interests at heart, Atlas Copco's ultimate goal is to provide you with the hassle-free compressed air to run your business.

#### Continuous Supervision

With maximum uptime and reliability being highly important elements in your everyday production workflow, continuous surveillance is a top priority. With **AIRConnect Supervision**, Atlas Copco handles the event notifications and provides the immediate response necessary, backed by a Response Time Guarantee.

#### In-depth Analysis

Reducing the energy consumption of your compressed air system is a crucial factor on the road to substantial cost savings. To be able to do so, you require thorough understanding of the system's performance. **AIRConnect Analysis** provides the complete data service you are in need of to optimize system usage and minimize energy consumption.
