# A diverse range of compressed air & power solutions

## Atlas Copco Rental strengths

Meeting the needs of industry Atlas Copco Rental provides equipment with **low emission diesel engines and electric-driven compressors.**

### Contingency planning

You need to have a contingency plan in place for unscheduled or emergency situations such as natural disasters.

Let one of our experienced representatives design a plan that matches your specific needs.

### It's all about solutions.

Industry turns to Atlas Copco Rental because it delivers with individualised solutions that work

### PTS 916

Portable diesel rotary screw compressor. Class Zero Oil-free and ideal for quick mobilisation\* in an emergency

### ZS VSD Series

Electric rotary screw blowers ideal for both permanent installations and quick deployment\* in emergencies.

### QAS500 Generators

Portable diesel generators which can be available at a moments notice\* for emergency power supply.

\* Mobilisation times are subject to availability of equipment in your area

Already a leader in the field of oil-free air compression technology, Atlas Copco asked the internationally recognized Technical Monitoring Association TÜV to type-test the ZS-range of blowers and the PT-range of oil-free screw compressors. They were submitted to the most rigorous testing methodologies available. The TÜV found no traces of oil in the output air stream. Atlas Copco has thereby become the first compressor manufacturer to receive certification for a new industry standard of air purity: **ISO 8573-1 CLASS 0**
