

Atlas Copco Specialty Rental

Cheers !

Save money, save time...

Already a leader in the field of oil-free air compression technology, Atlas Copco asked the internationally recognized Technical Monitoring Association TÜV to type-test the Z-range and the PT/PN-range of oil-free screw compressors. They were submitted to the most rigorous testing methodologies available.

The TÜV found no traces of oil in the output air stream. Atlas Copco has thereby become the first compressor manufacturer to receive certification for a new industry standard of air purity:

ISO 8573-1 CLASS 0

Produce nitrogen from your existing compressed air supply

Whether you're purging oxygen from the wine during bottling, or emptying tanks and barrels, a dependable supply of nitrogen is crucial. At Specialty Rental we focus on your need for a cost-effective, reliable and secure supply of nitrogen. With the advanced NG nitrogen generators we provide you with the ultimate solution: flexible on-site nitrogen generation at the lowest possible cost.

- ✓ **RENTAL** means no capital or running costs for extra **cost efficiency**
- ✓ **Proven technology**, **simple**, **reliable** and **durable**
- ✓ **Your own independent on-site supply** of nitrogen
- ✓ **Continuous availability**
- ✓ **The exact nitrogen purity** your application demands
- ✓ **Elimination of safety hazards** such as handling high pressure cylinders

Would you risk the quality of your wine?

Certification comes as standard. Atlas Copco Specialty Rental is the first company in its sector to be awarded triple certification by Lloyd's Register Quality Assurance, covering quality, environmental protection and health and safety management.

Along with 100% oil-free Class Zero certified air compressors, you can be sure that the quality of your wine and the environment around you is never compromised.
