

GENUINE PARTS

Genuine parts from Atlas Copco Gas and Process give you the ultimate peace of mind, ensuring trouble-free maintenance and sustainable machine operation.

Atlas Copco

GENUINE PARTS

Success is the sum of the parts. Atlas Copco genuine spare parts ensure that your machinery delivers top performance throughout its lifetime.

Our genuine Atlas Copco parts are manufactured to the same exacting standards as our equipment: They pass the very same rigorous endurance tests. Employing genuine Atlas Copco parts avoids problems such as premature failure and lower performance. Simply put, employing genuine parts has proven to be the best way to protect your investment from poor performance, while also ensuring your machine operates in line with original factory specifications.

Atlas Copco Gas and Process machines are custom-made, and that means they also require customized parts. That's why all of our parts and pieces work together seamlessly to provide you with the superior and sustainable performance you have come to expect from an Atlas Copco equipment.

What's more, all parts are available throughout the machine's lifetime.

Planning Ahead

Spare parts are not only needed during Preventive Maintenance activities, we strongly recommend that you keep them in stock to ensure minimal downtime. This is especially important for capital spare parts, which are fully customized and require additional time to be manufactured and modified.

To avoid production downtime, you should plan head and keep these parts on stock – either at your facility or at Atlas Copco. Please talk to your Aftermarket sales specialist if you would like us store parts for you. By keeping parts in stock with us, you will benefit from an extended warranty and can be certain that parts are in the perfect shape and can be quickly installed when they are needed.

Preventive Maintenance Kits

If you are planning an overhaul or a Preventive Maintenance intervention and aren't covered by one of our maintenance plans that includes spare parts, our Aftermarket specialists can provide a solution. To simplify your spare part order, you can request a Preventive Maintenance kit for the upcoming service. This upgrade will also include all parts needed for the relevant service level.

GENUINE PARTS BENEFITS

- Ensure availability throughout machinery's lifetime
- Reduce operating costs
- Minimize equipment downtime
- Extend service life
- Single point of contact for all equipment parts

“Employing our genuine parts is the best way to protect your investment from poor performance and to ensure that your machine is working in line with original specifications – and your expectations.”
