THE POWER TO CHOOSE!

The E-Air T900 electric portable compressor.

Sustainable Productivity

Atlas Copco
Have you considered going electric?

The E-Air T900 electric portable compressor is a combination of smart engineering, time tested technology and quality components. The outcome is a compressor with extreme versatility, which is suitable for a wide range of applications.

Perfect for sites and applications where there is a ready supply of power, the compressor is easy to install as it requires no additional foundations. The corrosion resistant canopy is designed for use in all weather conditions without the need for additional rooms and enclosures.

The E-Air T900 is an outstanding choice when it comes to setting up an efficient job site. Delivering compressed air from 7 to 10 bar (100 to 150 psi) with a flow of up to 25 m³/min (900 cfm). Compact, lightweight and easy to move, coupled with outstanding ruggedness and durability make this an excellent choice for rental fleets and customer sites.

* Unit performance measured according to ISO 1217, Ed. 3, Annex C - 1996
** Measured according to ISO 2151: 2004 using ISO 9614/2

### OPTIONS

- Undercarriage with parking brake and jockey wheel.
- Customized colours.
XC2003 CONTROLLER
The compressor is equipped with an intuitive XC2003 controller that allows ease of operation.

POWER-FLEX FRAME
Designed to allow smooth and safe movement across any terrain, while being 110% spillage free. Guaranteed to quarantine all liquids from the machine and prevent soil contamination.

SILENCED CANOPY
Tough, silenced canopy with corrosion resistant protection ensures durability and performance even in the harshest environments. No dedicated compressor room or enclosure required.

BUILT IN AFTERCOOLER
Reduces compressed air temperature and prevents moisture build up in air lines.

EASY ACCESS
For single side service.

REDUCED MAINTENANCE TIME AND COSTS

NO EMISSIONS

RUNNING COSTS CAN BE REDUCED BY UP TO 50%

POWER-FLEX FRAME TO ENSURE EASE OF MOVEMENT AND SAFETY

UP TO 50% SMALLER Than conventional compressors

UP TO 33% LIGHTER Than conventional compressors

Up to 50% up to smaller

* Comparisons made will differ depending on model. Please consult a sales representative for more details.
