

Atlas Copco Generators

Designed to perform, built to last

Generator Features

• Multi-Voltage Selector Switch	• Digital Control System
• Remote Start / Stop	• Electronic Governor
• 110% Fluid Containment	• AREP Excitation for superior motor starting*
• Lockable control panel	• Multi-Voltage Selector Switch
• Analog gauges measure volts, amps and frequency	• Valved fluid drains plumbed to edge of skid
• Curbside power connections*	

Generator Options

• Full frame trailer with 15" wheels	• Rear Stabilizer Jacks
• Battery Charger	• Tool Box
• Ball Coupling*	• External fuel tank 3-way valve with quick connections
• Spare Tire	

Atlas Copco's **QAS Series** of generators offer standard features that maximize safety and minimize environmental impact plus:

Durability

- Rugged Zincor steel coated canopy.
- Mounted on durable skids.
- Designed for extreme weather conditions.
- 110% fluid containment frame prevents any environment contamination

Efficiency

- Increased up-time: carefully selected components and tested configuration.
- Genuine versatility: All our generators can power a wide variation of critical applications.
- Reduced cost of ownership: 500 hrs service intervals, efficient transport handling.
- Designed for easy servicing.

Health, Safety and Environment

Atlas Copco's stringent manufacturing standards follow ISO 9001 quality assurance regulations. All components are produced and tested to exacting standards for optimum performance
