

# ***ATLAS COPCO RENTAL*** **Serving the energy sector every day!**

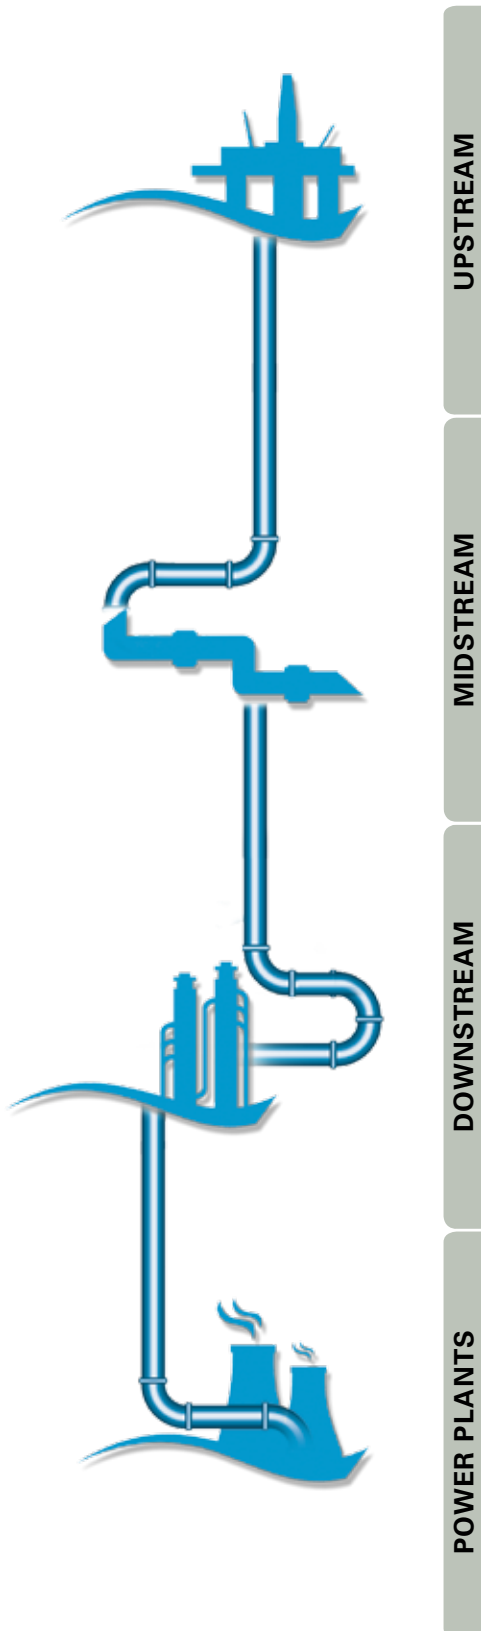

Your trusted partner for temporary Air, Power,  
Steam and Nitrogen Solutions

*Atlas Copco*

## Supporting the Energy sector all the way

With over 140 years of experience and a presence in over 170 markets, you know you can trust Atlas Copco as your partner for global solutions in the energy sector.

From the Oil and Gas upstream all the way to the renewable energy sector Atlas Copco Rental has references around the globe.

### UPSTREAM

We serve customers onshore and offshore, from exploration to production. We are present in the entire upstream value chain:

- Finding new reserves
- Drilling wells
- Building new platforms
- Production and maintenance
- Decommissioning

### MIDSTREAM

- Pre-commissioning of oil and gas pipelines
- LNG terminals and tankers
- GtL installations

### DOWNSTREAM

- Oil refineries
- Petrochemical installations
- Various types of chemical plants
- Air separation

### POWER PLANTS

- Fossil fuel fired power plants
- Nuclear power plants
- Offshore and onshore wind farms
- Solar plants

# Applications

## Serving Your Business Around the Clock

Atlas Copco Rental serves daily the energy sector for a diverse range of applications and processes.

We adapt to your specific applications and objectives to make sure that the optimal safety and efficiency of your processes is guaranteed.

- Seismic exploration
- Drilling
- Well testing
- Enhanced oil recovery
- Cutting transportation
- Well head recovery
- Offshore services
- Marine growth removal
- Gas wellhead compression
- Gas gathering
- Temporary power

UPSTREAM

- Dewatering
- Cleaning
- Drying
- Testing
- Inerting

MIDSTREAM

- Catalyst regeneration
- Contingency planning
- Instrument air, plant air, process air
- Emergency back up
- Temporary air, power and nitrogen demand
- LPG flushing

DOWNSTREAM

- Instrument air, plant air, process air
- Pipeline cleaning and blowing
- Integrated leak rate test
- Emergency back up
- Stress relieve of piping
- Bubble curtain

POWER PLANTS

# Solutions

## The Air, Nitrogen, Steam or Power you need

At Atlas Copco Rental we always go the extra mile to provide the best possible solutions to help you grow, produce and succeed.

With a comprehensive product offering, we provide reliable equipment for many challenging applications along the entire energy sector.

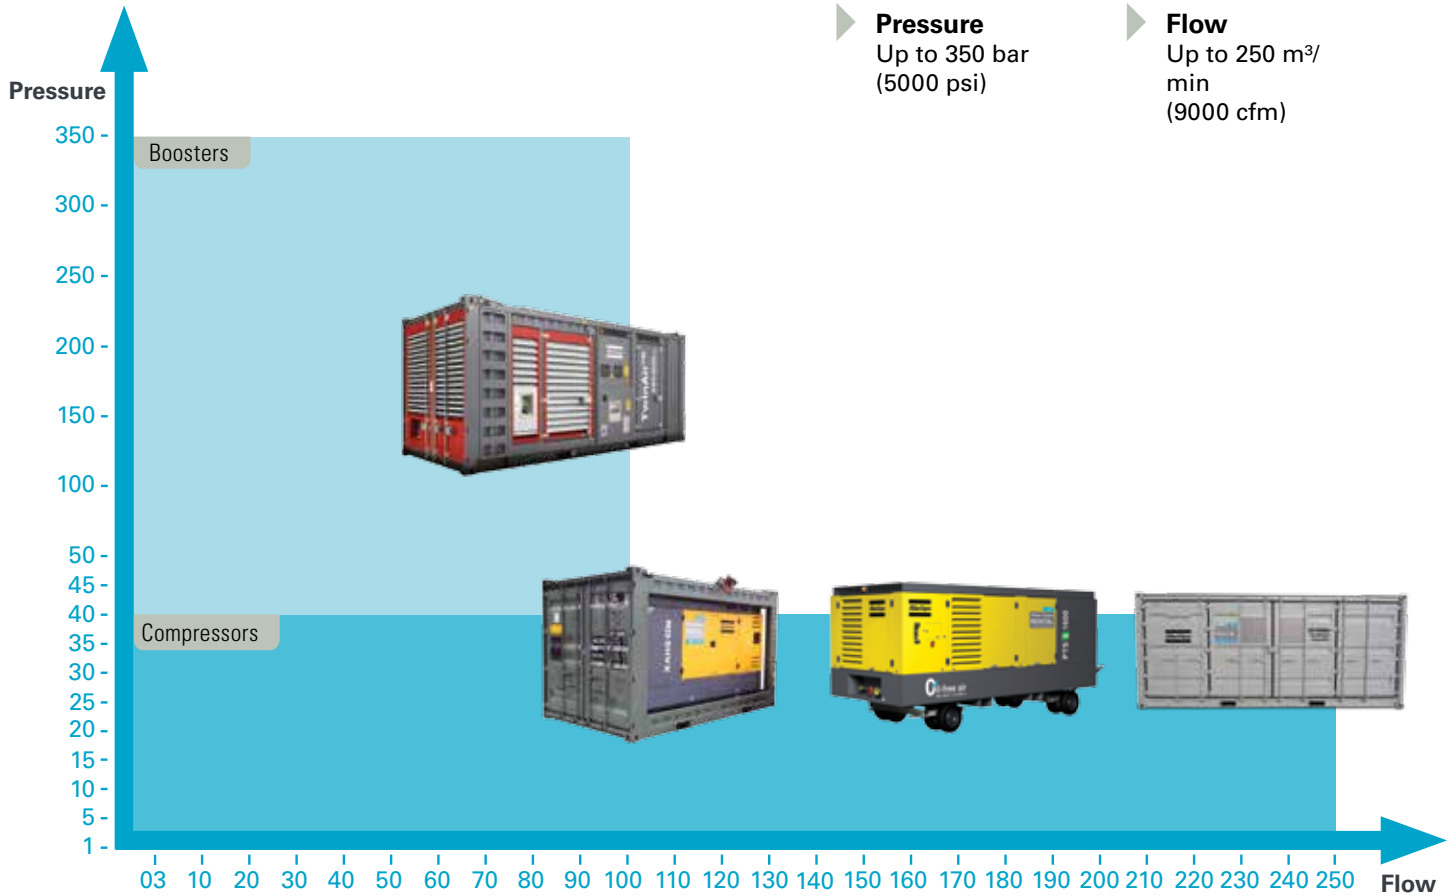

When you rent from us you rent a total solution. We help you in finding the optimal solution, we bring technical advice and project management: We design rental packages in line with your needs.

The logistics and related service activities are always an integral part of any project. We can also support you with energy management systems if required.

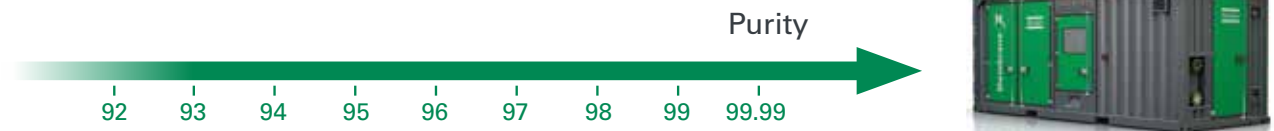

## Whatever the job is:

UPSTREAM	<p><b>Atlas Copco Rental helps unearth what's beneath the surface, both onshore and offshore</b></p> <p>We offer a complete range of solutions for any of the applications within the upstream sector.</p> <p>We carry the necessary high pressure boosters for seismic exploration, compressors and steam boilers for well testing, and a wide range of air, nitrogen, steam and power solutions for production and platform maintenance.</p> <p>We supply packages for installations onshore and for offshore in Rig Safe and Zone 2 execution.</p>
MIDSTREAM	<p><b>To get your Oil and Gas from A to B; Atlas Copco Rental is your partner for every step along the way</b></p> <p>We have built a wealth of experience for pre-commissioning of pipelines of any length and diameter, LNG terminals and tankers, and GtL installations.</p> <p>We can provide end-to-end solutions with compressors and boosters up to 350 bar / 5000 psi, as well as dryers and nitrogen membranes for various flows and purities.</p>
DOWNSTREAM	<p><b>From crude oil to finished product we support you in all processes</b></p> <p>Continuous reliability and safe operation of equipment are key requirements in refineries and petrochemical installations.</p> <p>Atlas Copco Rental's wide range of oil free compressors and dryers, as well as nitrogen and power solutions ensure that you keep production going and have efficient turnarounds.</p>
POWER PLANTS	<p><b>Effective solutions for any type of power plant</b></p> <p>Boasting superior performance and high efficiency, Atlas Copco Rental provides a complete range of compressors and dryers for different air qualities, including 100% oil free air, dry air and hot air.</p> <p>We also carry a range of compressors and boosters for higher pressures.</p>

## Our service offer

We understand the energy sector is a non stop operation: our services are in line with those stringent requirements.

- We are 24/7 available and ready to support you
- We keep track of all machines maintenance requirements so they stay in top condition
- We have Offshore certified technicians
- We can bring operators on site if needed

## Your Service Partner Around the Clock

No matter the industry segment, for the past 50 years we have helped in the successful completion of simple to large and complex projects, in challenging conditions or in the most harsh environments.

We provide the most reliable solutions to our customers, thanks to our highly competent and committed sales and service staff.

---

### Safety first

All our equipment is factory-tested prior to dispatch in accordance with our internationally accredited quality system. Designed and built to perform dependably and safely anywhere, anytime, our products come with the most advanced additional safety features.

As an approved quality supplier of temporary air, nitrogen, steam and power systems, Atlas Copco Rental meets and exceeds the strictest environmental rules and legislation.

---

### 24/7 Availability and Customer Service

Atlas Copco Rental has a global network of rental depots and service centers, devoted to bringing you customized solutions for your applications. We know you need a fast and reliable service – that's why we're never more than a phone call away. Whatever you need for your Oil and Gas process, you can contact us around the clock. Our highly trained service technicians speak your language and are readily accessible 24/7.

---

### Tough Standards

Atlas Copco Rental has been granted triple certification to ISO 9001:2000, ISO 14001:2004 and OHSAS 18001 for Quality, Environmental and Occupational Health and Safety Management by Lloyd's Register Quality Assurance (LRQA). This triple certification demonstrates our commitment to the quality of our services, our care for the environmental impact of our operations and the health of our employees and customers.
