

ATLAS COPCO RENTAL, THE INDUSTRY LEADER

WORLDWIDE REACH

Atlas Copco is the industry leader when it comes down to short- or long term rental of industrial air, power and on-site nitrogen. Available 24/7, we offer a total solution: state-of-the-art fleet, logistics, installation, maintenance and energy management. All tailored to your needs.

TOUGH STANDARDS

The Specialty Rental Division has been granted triple certification to ISO 9001:2000, ISO 14001:2004 and OHSAS 18001 for Quality, Environmental and Occupational Health & Safety Management by Lloyd's Register Quality Assurance (LRQA). This demonstrates our commitment to the quality of our services, our care for the environmental impact of our operations and the health of our employees and customers.

Sustainable Productivity

We are committed to our customers and employees. We provide a global network of rental depots with reliable solutions and 24/7 support. We are triple certified for Quality, Environmental, and Occupational Health and Safety Management. This is what we call - Sustainable Productivity.

Partner of the Manufacturing Industry

*Total solutions for every need
Directly from the experts*

Atlas Copco

When to rent?

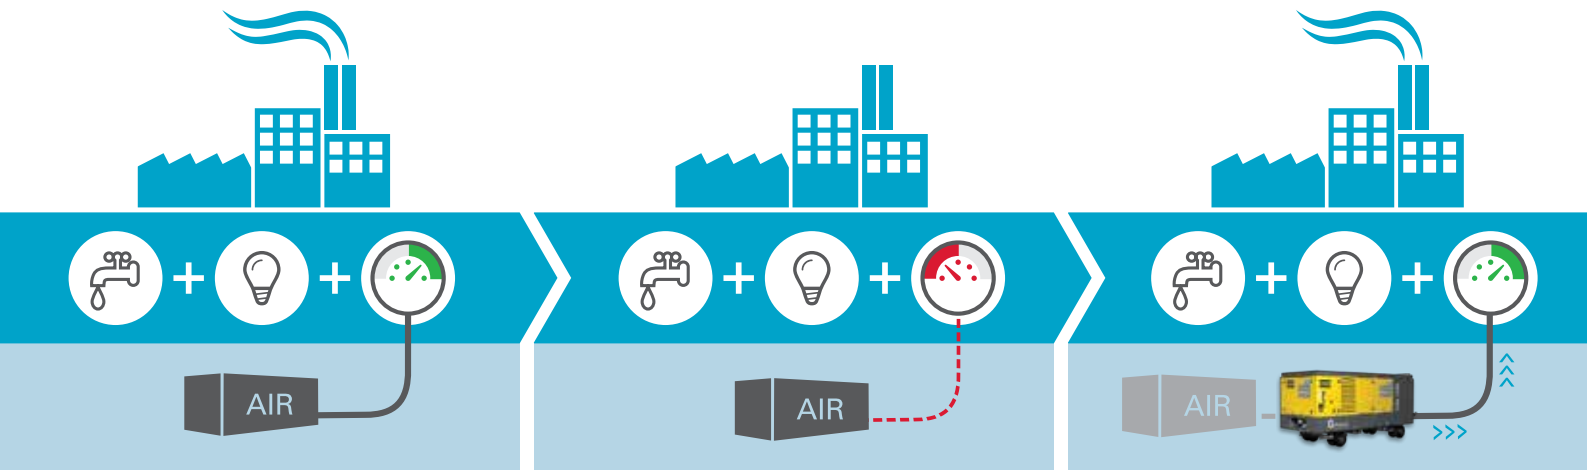

Every industry and process is different but they share the need for reliable utilities like electricity, water and compressed air. When it comes to compressed air, Atlas Copco Rental can cover every need that could arise; in every one of those industries.

- Emergency situation or breakdown
- Temporary standstill or maintenance
- Continuity during construction work
- Need for expansion
- Seasonal activity...

For each of these typical needs, our experts will design the optimal configuration, with carefully selected equipment from its broad range of compressors, generators, nitrogen units and matching accessories.

Why rent?

- **Keep production going:** If equipment breaks down, we will deal with it quickly and efficiently to ensure minimum interruptions in your process.
 - **Maintain full flexibility at all times:** Get the equipment you need, when you need it, and keep your equipment inventory to a minimum.
 - **Do not tie up your capital:** and use it for other, potentially more profitable, ventures.
 - **Control your costs:** you have just one monthly invoice.
 - **Avoid costly maintenance:** We take care of the maintenance, so you won't need a repair shop, spare parts inventory or mechanics.
- ... are only few of the good reasons why you should look into renting!

Why Atlas Copco Rental?

The industry leader

For short or long term rental of high quality air, nitrogen or reliable power and state-of-the-art accessories, we are able to meet your needs around the clock: **it's our business to keep your business running.**

A global player with local presence

With over 130 locations worldwide, we have the experience, know-how and equipment to handle large and small projects, whether in response to an emergency, for planned backup or temporary replacement projects.

The size of our fleet as well as our very short response times guarantee the continuity of your production, no matter what happens we can come up with tailored solutions thanks to our efficient and reliable equipment, and the recognized quality of our services.

Atlas Copco Rental's experts: our total solution concept

More than offering state of the art fleet, it is Atlas Copco Rental's people who bring the true value to your projects. Anywhere and anytime, **our experts are at your disposal** even in the most unpredictable and urgent situations.

Atlas Copco Rental has decades of experience operating in the industry, across all sectors: through this experience we have developed a **total solution concept** since we want to work in partnership with you to deliver exactly the solution that meets your requirements:

- We provide our customers safe and reliable installations, designed to meet their needs,
- We manage all logistical services from transport of equipment to delivery of certificates.
- We take care of installation, commissioning and can provide on-site operators to ensure a successful project.
- To ensure uninterrupted production on your sites we can also offer energy management solutions

Contingency planning: We help you safeguard your business continuity

To prevent longer term compressed air shortage Atlas Copco Rental studies with you a plan tailored to your operational needs. This study identifies requirements in terms of equipment and related accessories, access and connection conditions.

In the event of an emergency we will be there with the perfect solution in no time!

Temporary Air, Nitrogen and Power

Oil-free air

Class Zero ISO 8573-1 certified compressors delivering guaranteed 100% contamination free air for even the most critical applications with the need to maintain safe operation of your equipment and projects.

Oil-injected air

Cost effective compressed air, delivered by mobile and containerized units. Built to the most stringent specifications, rugged and suitable for even the harshest and most specialized markets.

Air treatment

Energy efficient air treatment equipment: air dryers with dew points down to -70°C

Nitrogen

Onsite nitrogen generators for purities between 95 and 99.999%, at different flows and pressures.

Power

Clean, stable power in a mobile, diesel driven, silenced package, undisturbed by widely varying loads or extreme ambient conditions.

Fleet differs from market to market. Visit www.atlascopcorental.com to find your nearest contact.
