

***No matter the size,  
we'll handle your project!***

Find out how Atlas Copco Rental handles  
your big projects from start to finish.

***Atlas Copco***

# An Atlas Copco Rental solution for all your greatest challenges

*A big project coming up? We'll handle it! And we mean all of it: ranging from experts to logistics to 24/7 availability. An Atlas Copco Rental solution is designed to reach your goals, now and in the future.*

- **Project management:** your complete, extensive project will be organized down to the last details in a matter of days.
- **Calculation & design:** to answer your specific needs, our specialists make all calculations and design a customized set-up according to industrial standards.
- **QSHE management:** the main focus points we take in to account for your solution are quality, safety, health and environment.
- **Logistics:** your installation's entire journey is planned and arranged, to and from your premises in no time.
- **Installation:** trained technicians set up your installation on-site, safely and quickly.
- **Trainings:** our partnership is a two-way stream. We arrange custom-made trainings for your operators and technicians so they can operate the equipment correctly and efficiently, and your feedback helps us optimize our services.
- **Commissioning:** to ensure your production quality, our service engineers start up the installation with you and we will fine-tune the set-up together.
- **Operators:** trained employees (either yours or ours) operate the machinery on-site.
- **Maintenance and monitoring:** to make sure all the equipment runs in the perfect conditions required for your challenge, we visit your site regularly.
- **AdBlue® & fuel management:** we keep an eye on your fuel and AdBlue® levels (remotely or on-site) and refill when necessary so your processes will never run out.
- **24/7 service:** we remain available 24/7 for any questions, changing demands or emergencies you might have and can provide you with a 1st or 2nd technician on call.
- **Decommissioning:** the complete installation is dismantled and removed from your premises for you.

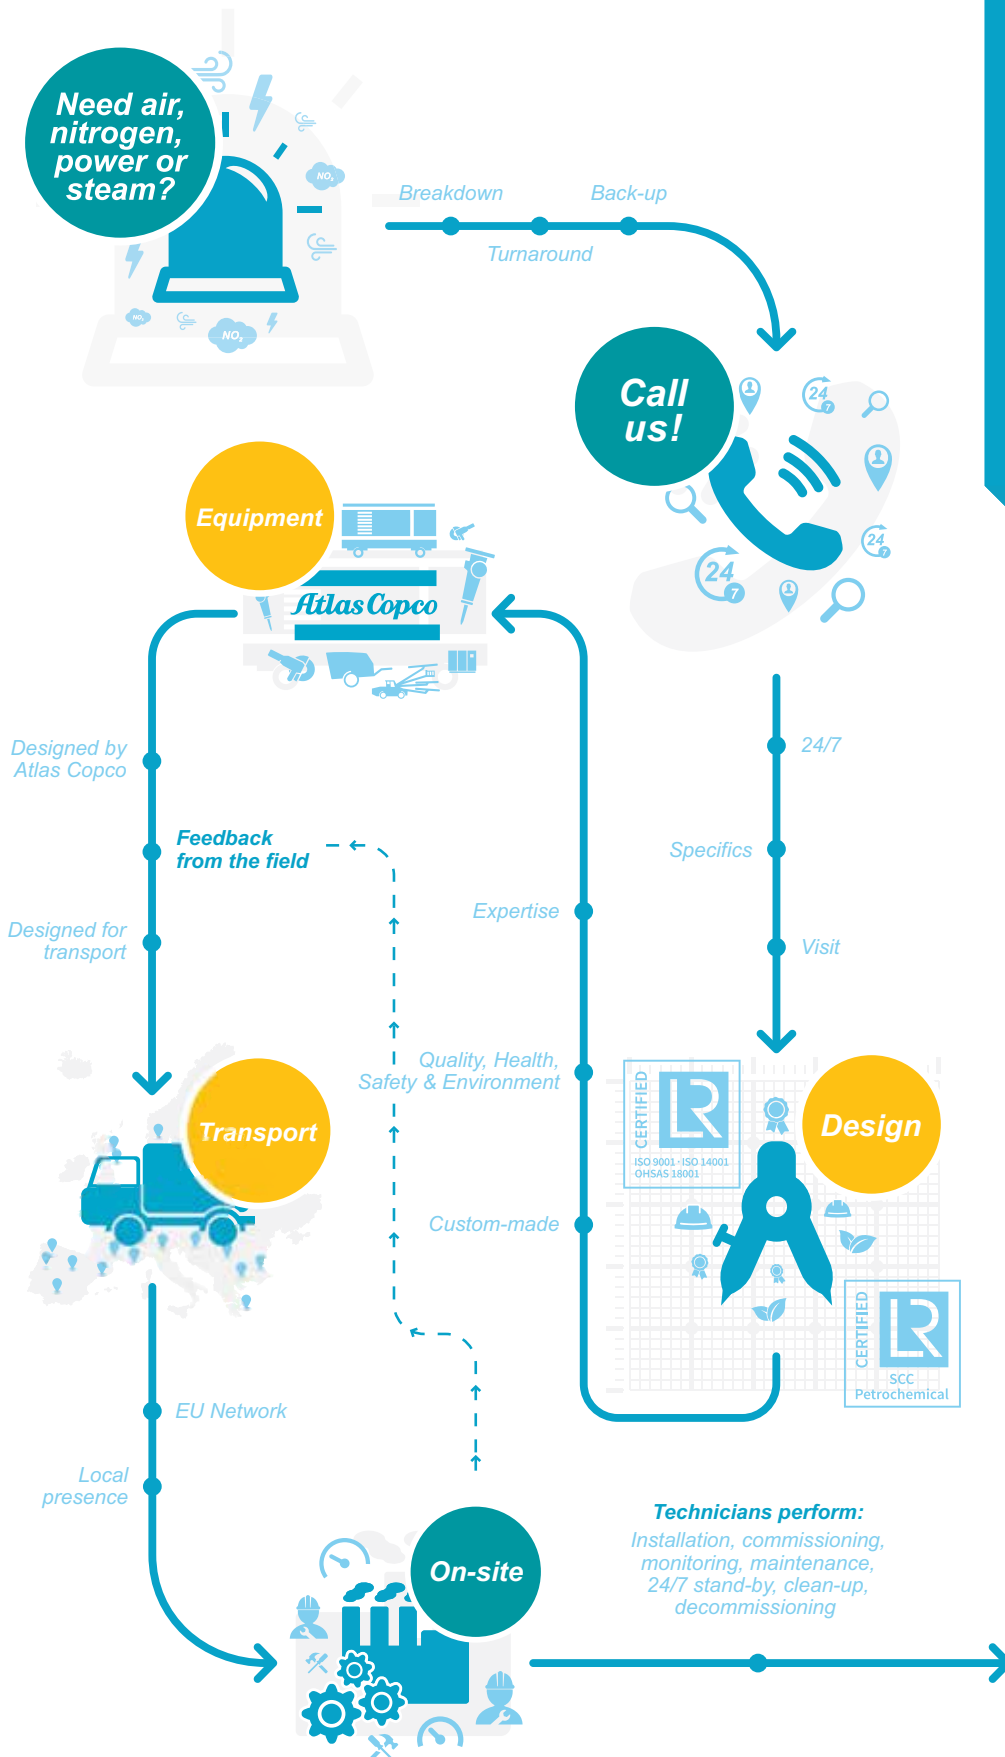

## Handled with Air

In 2017 our company was put to the test by a customer who demanded an air flow of 250.000 m<sup>3</sup>/h for an entire year. We pulled all strings in our European network and fleet to set everything up within a week and saved this client from an enormous production loss.

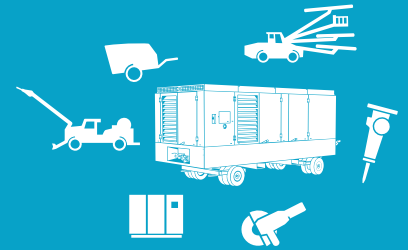

# More than machines

At Atlas Copco Rental, we create total solutions for any temporary air, power, nitrogen and steam application.

## Atlas Copco Rental, the industry leader

### Worldwide reach

Atlas Copco is the industry leader when it comes down to short or long term rental of industrial air, power, steam and on-site nitrogen. Available 24/7, we offer a total solution: state-of-the-art fleet, logistics, installation, maintenance and energy management. All tailored to your needs.

### Tough standards

The Specialty Rental Division has been granted triple certification to ISO 9001, ISO 14001 and OHSAS 18001 for Quality, Environmental and Occupational Health & Safety Management by Lloyd's Register Quality Assurance (LRQA). This demonstrates our commitment to the quality of our services, our care for the environmental impact of our operations and the health of our employees and customers.

## Sustainable Productivity

We are committed to our customers and employees. We provide a global network of rental depots with reliable solutions and 24/7 support. We are triple certified for Quality, Environmental, and Occupational Health and Safety Management. This is what we call Sustainable Productivity.

We remain available 24/7 for all questions or inquiries!
