COMPLETE HOSE KITS DML SERIES

The Atlas Copco hose kit solution – your passport to cost down identification

MINIMIZE DOWNTIME MAXIMIZE AVAILABILITY

ATLAS COPCO HYDRAULIC HOSE KIT ASSEMBLIES OFFER A COMBINATION OF SAFETY, TECHNOLOGY, STRENGTH, FLEXIBILITY AND DURABILITY THAT IS UNMATCHED BY ANY OTHER PRODUCTS ON THE MARKET TODAY.

Tracking of inspections and recertification

Real time access to the data, from any internet ready computer

Based on a scheduled, preventive maintenance change out program

Ability to build a comprehensive preventive maintenance program

Ability to upload certifications, photos and other documentation

MAIN BENEFITS

Minimize downtime associated with hose failures

Increase overall rig availability

Keep track of the condition and performance of the hose system

Convenient kit format, delivers cost savings over individual replacement.

Save money and time with Custom engineered solutions from Atlas Copco.

Hose assembly replacement at the right time.

Minimize downtime and maximize availability using best practice tagging technology to report hose condition and performance for your key Atlas Copco assets.

HOSE KIT PART NUMBERS

Rig model	Kit types	Part number
DML LP/HP	Main hydraulics	2658723014
	Compressors / Receiver EARS	2658581754 LP / 2658581747 HP
	Jacks	2658723028
	Power head	2658723042
	Undercarriage	2658723049
	Tower	2658723056
DML SP	Main hydraulics	2658723021
	Compressors / Receiver EARS	2658581740
	Jack	2658723028
	Power head	2658723042
	Undercarriage	2658723049
	Tower	2658723063

QUALITY MADE BY ATLAS COPCO

- Color-coding makes pressure rating identification easy
- High flexibility for easier routing in tight applications
- Extends assembly life in bending, flexing applications
- 4:1 WP/burst pressure rating for added safety
- Compatible with biodegradable hydraulic fluids
- Broad temperature range:
  -55 to +212 degree F for wire-braid
  -55 to +250 degree F for spiral-wire
- Abrasion-resistant covers and burst bagging (MDG41 compliant)
- RFID tagged, part numbered, test certifications and installation guidelines

CLEAN, ERGONOMIC MANUFACTURING PROCESS

- Manufactured to factory drawing
- Hose cleaning and decontamination process
- Capped or plugged
- Part number identified
- Made to order kits
- Electronically tagged (RFID)
