

## **COMPRESSOR DATA SHEET -**

**Rotary Compressor: Variable Frequency Drive** 

| MODEL DATA - FOR COMPRESSED AIR |   |   |   |  |  |  |  |
|---------------------------------|---|---|---|--|--|--|--|
| 1                               | Manufacturer: Atlas Copco   |   |   |  |  |  |  |
| 2                               | Model Number: GA110VSD+C142AP   | Date:   | 12/1/2017                                 |  |  |  |  |
|                                 | X Air-cooled Water-cooled   | Type:   | Screw                                     |  |  |  |  |
|                                 | X Oil-injected Oil-free   | # of Stages:  | 1   |  |  |  |  |
| 3                               | Rated Operating Pressure  | 125   | psig <sup>b</sup>                         |  |  |  |  |
| 4                               | Drive Motor Nominal Rating  | Rating 150  |   |  |  |  |  |
| 5                               | Drive Motor Nominal Efficiency  | 96  | percent                                   |  |  |  |  |
| 6                               | Fan Motor Nominal Rating (if applicable)  | 5.1   | hp  |  |  |  |  |
| 7                               | Fan Motor Nominal Efficiency  | 79  | percent                                   |  |  |  |  |
| 8*                              | Input Power (kW)  | Capacity (acfm) <sup>a,d</sup>  | Specific Power (kW/100 acfm) <sup>d</sup> |  |  |  |  |
|                                 | 130.2 Max   | 682.0   | 19.1                                      |  |  |  |  |
|                                 | 125.0   | 656.7   | 19.0                                      |  |  |  |  |
|                                 | 106.9   | 570.0   | 18.8                                      |  |  |  |  |
|                                 | 50.9  | 265.6   | 19.1                                      |  |  |  |  |
|                                 | 27.3  | 124.1   | 22.0                                      |  |  |  |  |
|                                 | 26.3 Min  | 116.7   | 22.5                                      |  |  |  |  |

\*For models that are tested in the CAGI Performance Verification Program, these items are verified by program administrator Consult CAGI website for a list of participants in the third party verification program:

NOTES:

a. Measured at the discharge terminal point of the compressor package in accordance with ISO 1217, Annex E; acfm is actual cubic feet per minute at inlet conditions.

b. The operating pressure at which the Capacity and Electrical Consumption were measured for this data sheet.

Member:

- c. No Load Power. In accordance with ISO 1217, Annex E, if measurement of no load power equals less than 1%, manufacturer may state "not significant" or "0" on the test report.
- d. Tolerance is specified in ISO 1217, Annex E, as shown in table below:

NOTE: The terms "power" and "energy" are synonymous for purposes of this document.

| Volume Flow Rate at specified conditions |                  | Volume Flow Rate | Specific Energy<br>Consumption | No Load / Zero<br>Flow Power |
|--|------------------|------------------|--------------------------------|------------------------------|
| m³/min                                   | <u>ft3 / min</u> | %                | %                              |                              |
| Below 0.5                                | Below 15         | +/- 7            | +/- 8                          | 1                            |
| 0.5 to 1.5                               | 15 to 50         | +/- 6            | +/- 7                          | +/- 10%                      |
| 1.5 to 15                                | 50 to 500        | +/- 5            | +/- 6                          |                              |
| Above 15                                 | Above 500        | +/- 4            | +/- 5                          |                              |

ROT 031 5/11 R6
